

Art Direction StudioEIS Brooklyn, NY May 15 – 17, 2018

StudioEIS conducted a 3-day photo shoot featuring actresses in period costumes representing the 12 historic women who will be cast in bronze for *Voices from the Garden: The Virginia Women's Monument* – the nation's first monument honoring the significant, but often unrecognized, contributions of women to a state's history.

This is a unique opportunity to witness the creative process in real-time. Watch the actresses rehearse their roles and breathe life into the women who helped shape the 400-year history of the Commonwealth of Virginia.
